

Jafco MicroFlex FR AS Waterproof Hi-Vis Rain Jacket

Description

Jafco MicroFlex FR AS Waterproof Hi-Vis Rain Jacket is a flame-retardant and anti-static outer garment designed to provide dependable weather protection and visibility across demanding trade environments. Constructed with a practical storm front and adjustable hood, the jacket supports comfort and coverage during wet working conditions. Simple storage features and adjustable sleeve fastenings enhance usability for everyday outdoor tasks.

Features

- 100% Polyester, PU Coating, 210 g/m²
- Wind and Waterproof: >20.000mm
- Large fixed hood with drawstring is designed to fit over safety helmets for improved coverage.
- Concealed front zip with press stud fastening enhances protection against wind and rain.
- Press stud sleeve adjustments provide a more secure and comfortable fit.
- Two front patch pockets offer practical storage for tools and essentials.
- Branding options available (heat seal and embroidery).
